BIBLIOGRAPHY AND FURTHER READING

This work is mainly a compilation of scholar knowledge, the output of two centuries of thorough research in comparative linguistics. It is highly recommended to consult other books on IE linguistics to learn Proto-Indo-European. Google books at <http://books.google.com/> is a great tool to read some parts of any of these works and decide whether it is interesting to buy them or not.

For this specific book we have used (among other, less important references) the following works:
